## Employment history

**Statens institutionsstyrelse,**  
**Lund,** (2500 employees)  
2010-2011

### Controller

As a controller I guarantee the transparency of results, finance, processes and strategy. Organise a reporting system which is future-oriented and covers both details and the organisation as a whole. I provide ten managers with necessary information. Another way to say it: *ensure that everyone has the possibility of controlling themselves within the framework of the elaborated goals and plans.*

**Katrineholm Energi AB,**  
**Katrineholm,** (1200/ 100 employees)  
2006-2008

### Controller

As a controller at Katrineholm Energi I take ownership for the production of monthly financial and management accounts, budgets, forecasts and managing cash flow. Ensure strong financial controls and processes operate throughout the business. Another way to say it: *Develop and maintain controlling systems.*

Key duties include that accounts are prepared in a accurate manner, producing statutory accounts.

I guarantee the transparency of business results, finance, processes and strategy. Organise a reporting system which is future-oriented and covers both details and the enterprise as a whole. I provide managers with necessary information. Another way to say it: *ensure that everyone has the possibility of controlling themselves within the framework of the elaborated goals and plans.*

As a Controller I steer and regulate, i.e. ensure that practical achievement lead to the agreed objectives. Working cross functionally in order to advocate commercial initiatives.
